Client
 KTU+A

Services
 Land Planning

Completion Date
 2009

Key Personnel
 Steven D. Nasland, PE;
 Principal-In-Charge

Larry Thornburgh, PE, PLS;
 Project Manager

Project Summary

Nasland Engineering assisted in the advanced planning for a new 500,000 square foot Naval Hospital at Camp Pendleton. The planning assessment included the preparation and analysis of several optional locations and layouts on a 100-acre site, including the assessment of grading impacts, road network development, earthwork quantities, and utility infrastructure. Ultimately a preferred 40-acre site was selected for the hospital including the buildings, parking structures, surface parking, roadway infrastructure, and utilities.
