Principal-In-Charge

Larry Thornburgh, PE, PLS;
Project Manager

Project Summary

As a sub-consultant to Skidmore, Owing & Merrill, Nasland Engineering provided civil engineering design and surveying services for the 'C' Street Master Plan. The project goal was to provide for future development and economic revitalization with the mix of vehicular, trolley, and pedestrian traffic it incurs today, all while enhancing all of the elements on the corridor. Nasland Engineering provided surveying in the documentation of existing conditions, and assisting in the preparation of schematic design plans analyzing the alignment, utilities, and infrastructure improvements.
